

Mozaik Guitar Quartet

Presentation

With more than 30 concerts in Belgium alone and appearances at festivals such as the Nürnberg Chamber Music Festival, Mozaik Guitar Quartet is one of the most promising young quartets on the international scene.

Their unique repertoire transcribed by themselves gives their concerts a constant freshness and novelty. The string quartets of

Debussy, Mozart or Shostakovich take on a new sonority, exploring the different colours and possibilities that only four guitars can offer.
